SUMMARY

Recently graduated from a two year study in Information Technology in France, I came in Australia to further developp my skills and experience Australia. I am appreciated for my rigor, my composure, and adapt and learn with rapidity and ease. I am available every day for the whole day, early or late shifts included and motivated to work in your company. I am looking for up to 24hours a week.

CAREER HISTORY

Lead Developer - Internship at Countact SAS
October 2022 - January 2023

- Managed team of three employees in the accomplishment of their missions, notably by means of bi-weekly points.
- Developed a tool for company's project management on Notion, to facilitate client communication and feedback.
